

| | |
|-----------------------------------|----------------------------|
| Potentiometer type | shaft |
| Track mat. | wirewound |
| Operating temperature | -55...125°C |
| Tolerance | ±5% |
| Power | 2 W |
| Shaft diameter | 6.35 mm |
| Features | precise |
| Min. insulation resistance | 1000 MΩ |
| Characteristics | linear |
| Linearity tolerance | ±0.25% |
| Number of electrical turns | 10 |
| Shaft length | 13 mm |
| Body dimensions | Ø22 x 18 mm |
| Fastening thread | M9x0,75 |
| Mechanical durability | 2.5·10 ⁵ cycles |
