

Product Detail

Basic Info

Model NO.: APA 1616

Trademark: Tongyi

Specification: DIN, UL, GB

Product Description

24 key infrared RGB Manual flash controller

Model: APA 1616

Operating temperature: -20-60° C

Supply voltage: DC12V

Output: Road emitter output

Connection: Were positive (total overcast)

Maximum load: Each 6A

Controller size: 50 * W 35 * H 22mm

Size remote control: 84* W 53* H 7mm

Application:

1. Mainly used in various models of various types of LED lights of the control to appear as a standard controller in different colors;
2. LED modules can be RGB-based color control, such as: Piranha module, lamp module, such as straw;
