The Energizer® Value Rubber Light is designed to be a sturdy, reliable torch. The molded solid rubber body resists damage from dropping and the switch is recessed to prevent accidental actuation. The light operates for about 11 hours between battery changes (using EVEREADY® SHD AA batteries) and the LEDs never need replacing, making it an economical lighting choice for general use.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light
