

CIRCUIT BOARD HOLDER – PV333

This circuit board holder features an eight-position rotating adjustment and six lock positions in the vertical plane. Spring-loaded, the PV333 allows tilt angle & height adjustments. The board can rotate quickly, which is very practical when you're soldering or when you wish to insert components.

Specifications

- weight: 2.9kg
- height (from base to top of vertical shafts): 10" (25.4cm)
