

STROBO TUBE 150WS – STC150

Features

- applications: signal
- packaging: blister

Specifications

- min. anode voltage: 300V
- nom. anode voltage: 450V
- max. anode voltage: 500V
- trigger voltage: 6KV min.
- fl/min: 60 max.
- life: 4 x 10⁶
- Ws: 120
- anode voltage: 450
- main capacitance: 240 μ F
- voltage across prim.: 240V
- trigger capacitor: -
- energy: -
- dimensions a: -
- dimensions b: -
- dimensions c: -
- dimensions d: -
