

# TENCLOS ENCLOSURE - BLACK 145 x 85 x 37mm – TK660B

These attractively styled enclosures were especially designed for "hand-held" instruments. The cases are in scratch-resistant ABS. The case parts are joined using 2/4 self-tapping screws. The enclosures have a recessed area suitable for membrane keyboards or aluminium panels.

ABS enclosure with a recessed area for a 0.5mm anodised aluminium panel. Base and cover are equipped with integral PCB mounting studs. Matt surface finish. The two halves are joined with four screws.
