

# ENERGY METER 230 VAC - 16 A - GERMAN SOCKET – E305EM6-G

## Features

- determine the power costs of your devices by means of this energy meter
- large LCD display
- 4 different screens present all electrical data
- displayed values: line power (W), consumption (kWh), total cost, cost/kWh
- reset function
- input/output through child-safe plug/socket

## Specifications

- operating voltage: 230 VAC 50 Hz
- max. load: 3600 W 16 A
- min. power display: 0.1 W
- power measuring accuracy:  $\pm 1\%$  or  $\pm 1$  W (0 - 100 W)
- min. consumption display: 0.01 kWh
- consumption accuracy:  $\pm 1\%$
- consumption range: 0.00 - 9999.99 kWh
- own consumption @ 220V:  $< 0.5$  W
- cost range: 0.00 - 9999
- dimensions: 55 x 115 x 75 mm
- weight:  $\pm 120$  g
