

Wago 210-619, Screwdriver, 210 Series

Product Details

Feed-through connections

Feed-through connections on DIN rail type TS 35, 3 conductors (1 input, 2 outputs).

Quick connection using cage-type springs, not affected by impact and vibration (Cage Clamp).

For rigid, semi-rigid and flexible conductors.

Front wiring.

Available accessories: bridging, markings, automatic stoppers, manipulation tool.

Current:	26 A (2.5 mm ²); 34 A (4 mm ²)
Nominal voltage:	750 V
Stripping length:	8 → 9 mm (2.5 mm ²)
Terminal width:	5 mm (2.5 mm ²)

Compact screwless DIN rail mount terminals suitable for use with TS35 'Top Hat' rails. The compact size of the terminal is possible due to the new cage clamp designed to satisfy the need to reduce cabinet space on site.

Accept cables 0,08 - 2,5 mm²/4 mm² flexible wire

Front cabling enables further space saving

Rated at: 500V/6kV/24A

Jumper bar rated current: 18A

Suitable marker cards and labels also available (each pack contains 5 cards, with 100 markers per card)

Specifications

Accessory Type	Screwdriver
Series	210
For Use With	Terminal Block
